Taylor, Samuel, fl. 1750.

Stenography, or The art of short hand perfected ... 5th ed.,
enl., cor. and improved with an additional plate. By C. Man-
ran. Boston, R. P. & C. Williams, 1819.

18 p. v. pl. (2 fold.) 28".
The present work, originally published in 1802 by the London book-
seller Lackington, and issued by him in 24 editions, is a cheap pirated edi-
tion of Samuel Taylor's "Essay intended to establish a standard for an
universal system of stenography, or short hand writing." The first two
American editions were issued anonymously, Boston 1800 and 1810 re-
spectively. Mangan's name was given to the 5d (1810) edition and to the
subsequent ones because of some slight improvements which he made.
The 4th edition appeared in 1815; the present edition, the 5th, issued in
1819, is the last known. cf. Bush, in Photographic mag., v. 15 (1802) p.
185-186.
